Business Case Information

A Procurement Business Case must be created and approved by your Agency APO for all proposed transactions that have an estimated value of \$10,000 or more, in addition to all procurements of Professional and Artistic Services, regardless of its estimated value. Procurement Business Case Information will NOT be viewable in IllinoisBID.

Has a Procurement Business Case been approved: Yes
 Procurement Business Case Reference Number: 13-79857

Overview

Description and Specifications:

The renewal of this procurement is for professional services to support the management of federal disaster recovery funds received from the US Dept of Housing and Urban Development (HUD), initially totaling over \$211 million under the Community Development Block Grant (CDBG) disaster recovery program. The balance of the approximately \$100 - \$120 million of this funding would be supported by the renewal vendor. The renewal vendor will assist DCEO in program planning, application guidebook revisions (as needed), program outreach, application review, award recommendations for DCEO's potential approval, ensuring federal/ other regulatory compliance, grant monitoring, grant reporting and grant closeout.

There are two business need justifications for this renewal, including: (1) the time constraints required to deliver assistance to affected communities and (2) the highly specialized program expertise needed to ensure federal compliance. The state is tasked with approving grants under a combined funding totaling \$211 million-- approximately \$100 - \$120 million of which this procurement will support. These grants will be approved through a selective, non-formulaic process, requiring extensive time to market/ provide outreach, review applications, make recommendations, process grants, monitor grants, ensure program compliance and close out grants. The second business justification, which is the extensive flood disaster program expertise needed can only be provided by a vendor with strong Community Development Block Grant (CDBG) Disaster Recovery (DR) programmatic expertise. These special CDBG disaster recovery allocations require compliance with three state action plans submitted by DCEO on behalf of Illinois and approved by HUD and with all impacted federal program regulations. This will be a unique, short-lived program that will provide project funding assistance to support Illinois

communities for years to come. The combined disaster recovery program funding, will support Illinois and DCEO's primary objectives to achieve permanent job creation, improve local public infrastructure, and support other quality of life enhancements, such increased affordable housing stock. The renewal of this funding will also support construction jobs in IL communities to support these stated objectives.

The initial award (Illinois Procurement Bulletin number 22021011) clearly indicated an initial period of two years with two optional renewals. The Department of Commerce and Economic Opportunity is exercising its first renewal option leaving one renewal option remaining.

Key Information
